## Factoids for the week of April 27 - May 1, 2015

## Monday, April 27, 2015

In 2014, the Pharmaceutical Research and Manufacturers of America's (PhRMA) member companies invested an estimated $\$ 51.2$ billion in the research and development (R\&D) of new innovative treatments and cures, according to its own release. The $\$ 51.2$ billion represents the majority of all U.S. public and private biopharmaceutical R\&D spending. PhRMA estimates that biopharmaceutical companies, on average, invest as much as six times more in R\&D, relative to their sales, than the average U.S. manufacturing firm. In 2014, PhRMA member companies invested nearly 24\% of domestic sales into R\&D. Only $12 \%$ of all drug candidates that enter clinical testing get approved by the U.S. Food and Drug Administration.

## Tuesday, April 28, 2015

Total dollars spent on U.S. medicines increased by $13.1 \%$ to $\$ 373.9$ billion in 2014, according to a new report by the IMS Institute for Healthcare Informatics. That was up considerably from the $3.2 \%$ increase registered in 2013. In 2014, a record 4.3 billion prescriptions were filled. The primary drivers for growth were higher spending on new treatment options, less of a hit from patent expirations and increases in the list prices of branded medicines.

## Wednesday, April 29, 2015

Year-to-date, the number of bank failures in the U.S. totaled four, according to the Federal Deposit Insurance Corporation (FDIC). There were 18 bank failures in 2014. The pace of bank failures has dropped off dramatically from the 157 registered in 2010. The FDIC's "problem" banks list stood at 291 in Q4'14, down from 329 in Q3'14, according to Bloomberg. The last time the list totaled fewer than 300 banks was 2008.

## Thursday, April 30, 2015

International Data Corporation (IDC) estimates that the wearable computing devices ("wearables") market will surge from worldwide unit sales totaling 45.7 million in 2015 to 126.1 million units in 2019, resulting in a five-year compound annual growth rate of $45.1 \%$, according to its own release. The biggest driver of growth is expected to come from smart wearables, which are devices that run third-party applications. IDC sees the evolution of wearables moving from the simple health and fitness bracelets and bands to more sophisticated devices that augment the PC and smartphone.

Friday, May 1, 2015
In April, the dividend-payers (420) in the S\&P 500 (equal weight) posted a total return of $0.39 \%$, vs. $0.90 \%$ for the non-payers (82), according to S\&P Dow Jones Indices. There are currently 502 stocks in the index. Year-to-date, the payers were up $1.55 \%$, vs. a gain of $7.45 \%$ for the non-payers. For the 12month period ended April 2015, payers were up $12.85 \%$, vs. a gain of $20.64 \%$ for the non-payers. The number of dividend increases in April totaled 39, up from 36 a year ago. Year-to-date, there were 169 increases, up from 164 a year ago. Year-to-date, there were five dividend cuts, down from six cuts at this point a year ago.
