War Times & The Stock Market

S&P 500 Index

Wars and conflicts have been a constant throughout history, however recent events might cause us to look at how the stock market has performed during past times of war. The chart below shows the S&P 500 Index level since 1927 and several of the major wars and conflicts since then. Though uncertainty may temporarily shape the market, we believe seeing the market's overall resiliency can help maintain a long-term perspective.

Source: S&P CapIQ, Bloomberg. Monthly index levels from 12/31/1927 - 6/30/2022. **Past performance is no guarantee of future results.** This chart is for illustrative purposes only and not indicative of any actual investment. The S&P 500 Index is an unmanaged index of 500 stocks used to measure large-cap U.S. stock market performance. Investors cannot invest directly in an index.

Stock Market Returns After Large First Half Declines

S&P 500 Index

After a down first half of the year, it is natural to wonder what is in store for the second half. Although it is impossible to predict what will happen, we can look at historical data from previous down first halves to see what has happened in the past. From 1930-2021, there were only 5 first halves with a decline of >15%. In 5 of 5 cases the second half of the year provided a positive return, with an average price return of 23.78%.

S&P 500 INDEX HISTORICAL PRICE RETURNS AFTER DOWN 1ST HALF

S&P 500 INDEX PRICE RETURNS

Year	1st Half Decline	Rest of the Year
1932	-45.44%	56.21%
1939	-17.35%	14.73%
1940	-19.90%	6.01%
1962	-23.48%	15.25%
1970	-21.01%	26.72%
2022	-20.58%	?
Average	-24.63%	23.78%
