6. As of 12/31/20, the amount of assets held by Small Blend, Small Growth and Small Value mutual funds and exchange-traded funds totaled \$471 billion, \$312 billion and \$167 billion, respectively, according to Morningstar.

This chart is for illustrative purposes only and not indicative of any actual investment. The illustration excludes the effects of taxes and brokerage commissions or other expenses incurred when investing. Investors cannot invest directly in an index. The S&P SmallCap 600 Index is an unmanaged index of 600 stocks used to measure small-cap U.S. stock market performance. The S&P SmallCap 600 Pure Growth Index is a style-concentrated index designed to track the performance of stocks that exhibit the strongest growth characteristics based on three factors: sales growth, the ratio of earnings-change to price, and momentum. It includes only those components of the parent index that exhibit strong growth characteristics, and weights them by growth score. Constituents are drawn from the S&P SmallCap 600 Index. The S&P SmallCap 600 Pure Value Index is a style-concentrated index designed to track the performance of stocks that exhibit the strongest value characteristics based on three factors: the ratios of book value, earnings, and sales to price. It includes only those components of the parent index that exhibit strong value characteristics, and weights them by value score.
